

FLUO for artificial nails

Fragrance
characteristic

Colours
from 6925 to 6945

Regulations
to evaluate with Regulatory
office

ICC Laboratories developed a new formulation of fluorescent nail polish with bright shades. Designed to give to the manicure an intense and dynamic effect. The UV light emphasizes colour, brightness and lightness.

Effects

Fluorescent effect, visible under UV light; bright colours under normal light.

Use

Apply the product directly on the nail like a normal nail polish.

Label

(to evaluate with Regulatory office)

 Do not throw out in the environment / Green Dot

 Bottle capacity indication

Advices

- we suggest the use of a Base Coat
- we suggest it for artificial nails
- for a better product performance we suggest to apply a white nail polish under the fluo nail polish
- due to the lightly opaque finish of the nail polish, we advise the use of a Top Coat

Matching products

ICC Top Coat for a more gloss effect

ICC Top Coat Mat for a mat effect

ICC Top Coat UV for a more luminescent effect

ICC Base Coat for protecting the nails

ICC white nail polish for better colour appearance
