office

ICC developed a wide range of nail polish with multi coloured chameleonic effects. Thanks to their particular formulation, the light reflects creating a spectacular transitional effect from a colour to another. As the nail polish switches colour reflecting the light the base colour remains unchanged. Colour contrasts become more or less evident dependent on the changing light.

Effects

A nail polish with various facets which will make your nails extremely seductive.

How to use

Apply the product directly on nails as a normal nail polish.
