

## SOAK OFF GEL POLISH

NOV 17

### Colour

Wide range of pastel, pearly and metallic colours

### Packaging

Nail polish 2 coated glossy or matt varnished bottle with unlacquered brush and steel balls

Soak Off Gel Polish is used after the application of a base. The concentration of pigment in the composition allows a uniform application of the colour that gives a covering effect.

### How to use

Prepare the nails using a buffer and the ICC Nail Primer.

Apply a thin layer of Soak Off Base Coat and catalyze.

Apply a thin layer of Soak Off Gel Polish and catalyze. If you wish, it is possible to make a second coat.

Apply a thin layer of Soak Off Top Coat or Soak Off Top No Wipe and catalyze.

For further information consult the guidelines.
