

SOAK OFF NAILS SANITIZER SPRAY

Code
05990000

Colour
transparent

Packaging
Plastic bottle of 150ml with the
specific spray dispenser

SANITIZER

The ICC Nails Sanitizer Spray has been formulated to sanitize the nails before the application of the Soak Off nail polish.

How to use

Spray on the nails and let it dry for about 1 minute. Apply it after the preparation of the nails with the buffer and before the application of the nail primer.

Features

- Easy application thanks to the specific spray dispenser
- Removes possible pathogens that could cause infections and onychomycosis problems if they are present on the nails after the application of the Soak Off nail polish.
