

SOAK OFF BASE

NOV 17

Colour
transparent

Packaging
Nail polish 2 coated glossy or
matt varnished bottle with un-
lacquered brush

Soak Off Base Coat must be applied with a thin coat before the application of the colour. That allows the cohesion of the product to the nail.

How to use

Prepare the nails using a buffer and the ICC Nail Primer, then apply one layer of Soak Off Base Coat and catalyse. Continue with the following phases as indicated in the guidelines.

Drying time

30 seconds in the UV lamp, 36 Watt

10 seconds in the LED lamp, 48 Watt

20 seconds in the LED lamp, 36 Watt

30 seconds in the LED lamp, 9 Watt

Lasting

20 days with Soak Off Gel Polish and Soak Off Top or Soak Off Top No Wipe

Removal time

15 minutes with nail polish remover (consult the guidelines)

Features

- Optimal adherence: Soak Off Base Coat allows an optimal adherence of the product to the nail.
- Easy application: apply it like a common nail polish.
