**How to use:** Put the product on a cotton disc and gently massage your nail.

**Specificity:** To remove easily the nail polish without irritating in any way the skin and odourless.

**Recommended packaging:** 100-125 ml.

**Minimum quantity:** 1000 kgs.

**Packaging:** Bulk of 200 kgs or barrel of 1000 kgs.

### Active principles

**Violet extract.** The violet contains salicylic acid that has a soothing and anti-inflammatory action. The violet extract has the property to balance the sebaceous secretion of the fat skin.

**Shea butter.** The Shea butter has soothing, nourishing and hydrating properties, that make it an excellent natural cosmetic product for skin care. It contributes to protect the skin from the solar radiations and, thanks to its antioxidant properties, it keeps the skin young.

**Lemon essential oil.** It has an important antiseptic and purifying effect. Thanks to the presence of vitamin C it accelerates healing processes and stimulates immune processes. It is a natural nail hardener.
