

# SOAK OFF MARKER

NOV 17

Colour  
Specific pastel colours

Packaging  
Marker

Soak Off Marker is a semi-permanent nail polish that you apply with only one coat and it doesn't need the application of a Base or Top Coat.

### How to use

Prepare the nails using a buffer and the ICC Nail Primer, then apply a thin layer of Soak Off Marker and catalyze. If you wish, it is possible to make a second coat. For further information consult the guidelines.

### Drying time

120 seconds in the UV lamp, 36 Watt

60 seconds in the LED lamp, 48 Watt

90 seconds in the LED lamp, 36 Watt

120 seconds in the LED lamp, 9 Watt

### Lasting

10 days

### Removal

5 minutes with remover (consult the guidelines)

### Features

- Three products in one: the special composition of Soak Off Marker doesn't need the application of a Base or Top Coat. Only one product with three functions
- NEW! You don't need Cleanser: after the application of Soak Off Marker you don't need to degrease the surface of the nail
- High Gloss: the special composition gives a glossy effect to the nail
- Easy application: apply it like a common nail polish
- One Coat: easy application and it is enough only one coat to obtain an optimal result
- Easy removal: easy removal with the nail polish remover in 5 minutes
